Neural Regeneration Research

Contents

Perspectives

2325 A sphingolipid message promotes neuronal health across generations

Wenyue Wang, Roger Pocock

2337 Harnessing endothelial cells and vascularization strategies for nerve regeneration

Papon Muangsanit, Poppy Smith

2327 Krüppel-like factor 2 (KLF2), a potential target for neuroregeneration

Surajit Hansda,
Prateeksha Prateeksha,
Hiranmoy Das

2329 Defined hydrogels for spinal cord organoids: challenges and potential applications

Wai Hon Chooi, Yuewen Wu,
Shi-Yan Ng

2351 Fish-on-Chips: unveiling neural processing of chemicals in small animals through precise fluidic control

Samuel K. H. Sy, Ho Ko

2341 Next-generation regenerative therapy for ischemic stroke using peripheral blood mononuclear cells

Masato Kanazawa, Itaru Ninomiya,
Yutaka Otsu, Masahiro Hatakeyama

2345 Ambroxol, the cough expectorant with neuroprotective effects

Kristin Patzwaldt,
Salvador Castaneda-Vega

2331 Neuronal trafficking as a key to functional recovery in immune-mediated neuropathies

Felix Kohle, Michael Schroeter

2349 Oligodendrocytes: the forgotten players of diabetes pathophysiology

Juan Antonio López-Villodres,
Beatriz García-Díaz

2333 Advancements in personalized stem cell models for aging-related neurodegenerative disorders

Mingxi Weng, Ralf Jauch

2335 New insights into astrocyte diversity from the lens of transcriptional regulation and their implications for neurodegenerative disease treatments

Ibrahim Olabayode Saliu,
Guoyan Zhao

2339 Unraveling the potential of acute intermittent hypoxia as a strategy for inducing robust repair in multiple sclerosis

Valerie M.K. Verge, Nataliya Tokarska,
Justin M. Naniong

2343 Potential of molecular chaperones for treating Alzheimer's disease

Gefei Chen, Jan Johansson

2347 Does HSP27 injection induce glaucoma damage in mice?

Stephanie C. Joachim, Sabrina Reinehr

Reviews

2354 Advances in spinal cord injury: insights from non-human primates

Gaetan Poulen, Florence E. Perrin

2411 The physiological role of the unfolded protein response in the nervous system

Shuangchan Wu, Wensheng Lin

2421 Mechanism of Cu entry into the brain: many unanswered questions

Shubhrajit Roy, Svetlana Lutsenko

2377 Function and dysfunction of GEMIN5: understanding a novel neurodevelopmental disorder

Charles H. Nelson, Udai B. Pandey

2456 Isoform- and cell-state-specific APOE homeostasis and function

Karina Lindner, Anne-Claude Gavin

2387 Human brain organoid: trends, evolution, and remaining challenges

Minghui Li, Yuhan Yuan,
Zongkun Hou, Shilei Hao,
Liang Jin, Bochu Wang

2430 Emerging strategies for nerve repair and regeneration in ischemic stroke: neural stem cell therapy

Siji Wang, Qianyan He, Yang Qu,
Wenjing Yin, Ruoyu Zhao,
Xuyutian Wang, Yi Yang,
Zhen-Ni Guo

2365 Unveiling DNA methylation in Alzheimer's disease:

a review of array-based

human brain studies

Victoria Cunha Alves, Eva Carro,
Joana Figueiro-Silva

Neural Regeneration Research

Contents

2400 NLRP3/1-mediated pyroptosis: beneficial clues for the development of novel therapies for Alzheimer's disease

Bo Hu, Jiaping Zhang,
Jie Huang, Bairu Luo,
Xiansi Zeng, Jinjing Jia

2444 Cell reprogramming therapy for Parkinson's disease

Wenjing Dong, Shuyi Liu,
Shangang Li, Zhengbo Wang

Research Articles

Brain Injury and Neural Regeneration

2480 Cav3.2 channel regulates cerebral ischemia/reperfusion injury: a promising target for intervention

Feibiao Dai, Chengyun Hu,
Xue Li, Zhetao Zhang,
Hongtao Wang, Wanjun Zhou,
Jiawu Wang, Qingtian Geng,
Yongfei Dong, Chaoliang Tang

2488 Atherosclerosis-associated *Inc_000048* activates PKR to enhance STAT1-mediated polarization of THP-1 macrophages to M1 phenotype

Yuanyuan Ding, Yu Sun,
Hongyan Wang, Hongqin Zhao,
Ruihua Yin, Meng Zhang,
Xudong Pan, Xiaoyan Zhu

Spinal Cord Injury and Neural Regeneration

2499 Ruxolitinib improves the inflammatory microenvironment, restores glutamate homeostasis, and promotes functional recovery after spinal cord injury

Jiang Cao, Xiao Yu, Jingcheng Liu,
Jiaju Fu, Binyu Wang, Chaoqin Wu,
Sheng Zhang, Hongtao Chen,
Zi Wang, Yinyang Xu, Tao Sui,
Jie Chang, Xiaojian Cao

Neurodegenerative Diseases and Neural Regeneration

2467 Activation of autophagy by *Citri Reticulatae* Semen extract ameliorates amyloid-beta-induced cell death and cognition deficits in Alzheimer's disease

Yong Tang, Jing Wei, Xiao-Fang Wang,
Tao Long, Xiaohong Xiang, Liqun Qu,
Xingxia Wang, Chonglin Yu,
Xingli Xiao, Xueyuan Hu, Jing Zen,
Qin Xu, Anguo Wu, Jianming Wu,
Dalian Qin, Xiaogang Zhou,
Betty Yuen-Kwan Law

2513 OSMR is a potential driver of inflammation in amyotrophic lateral sclerosis

Wenzhi Chen, Shishi Jiang, Shu Li,
Cheng Li, Renshi Xu

Optic Nerve Injury and Neural Regeneration

2522 Single-cell RNA sequencing analysis of the retina under acute high intraocular pressure

Shaojun Wang, Siti Tong, Xin Jin,
Na Li, Pingxiu Dang, Yang Sui, Ying Liu,
Dajiang Wang

2543 Optimal transcorneal electrical stimulation parameters for preserving photoreceptors in a mouse model of retinitis pigmentosa

Sam Enayati, Karen Chang,
Anton Lennikov, Menglu Yang,
Cherin Lee, Ajay Ashok, Farris Elzaridi,
Christina Yen, Kasim Gunes, Jia Xie,
Kin-Sang Cho, Tor Paaske Utheim,
Dong Feng Chen

Nerve Injury and Neural Regeneration

2532 Neuroprotective effects of G9a inhibition through modulation of peroxisome-proliferator activator receptor gamma-dependent pathways by miR-128

Aina Bellver-Sanchis,
Pedro A. Ávila-López, Iva Tic,
David Valle-García,
Marta Ribalta-Vilella, Luis Labrador,
Deb Ranjan Banerjee, Ana Guerrero,
Gemma Casadesus, Coralie Poulard,
Mercè Pallàs, Christian Griñán-Ferré

Notice of Retraction

2364 Retraction: Regulation of extracellular signal-regulated kinase 1/2 influences hippocampal neuronal survival in a rat model of diabetic cerebral ischemia

Corrigendum

2429 Corrigendum: Genistein suppresses mitochondrial apoptotic pathway in rat hippocampal neurons with Alzheimer's disease
